

Week 2

Online class session link (Week 2)

Week 2 Lecture Recording

Week 2 Agenda

Configure on-device developer options (if you want to test with a real device)

Logging Example (Shows how to enter log tags and debug statements)

The Activity Lifecycle

As a user navigates through, out of, and back to your app, the Activity instances in your app transition through different states in their lifecycle.

Activity State Callback Sample Project (Logs calls to the various "on*()" methods called on state change)

TextView - EditText - Button Sample Project (Shows interactions between screen text items and buttons)

Multi-Line Scrolling TextView Example
